

## **Gull Harbour Statement Regarding COVID-19**

March 18, 2020

Dear Valued Guests,

The health, safety and well-being of our guests and staff remain the most important priority of Gull Harbour Marina and Resort.

We want to assure our guests and employees that we have implemented a number of precautionary and preventive measures so that you the guest can feel safe while visiting Gull Harbour.

We continue to monitor information disseminated from Manitoba Health Services and Health Canada regarding COVID - 19. While Manitoba Health Services continues to deem Manitoba a low risk for COVID - 19, Gull Harbour is reviewing policies and plans to ensure that we take all precautions to protect our employees and guests.

As precaution, Gull Harbour has enhanced sanitizing measures at our location which include additional hand sanitizing stations, sanitizing equipment and cleaning staff.

There is also increased cleaning frequency throughout the property, as recommended by Manitoba Health Services, and anyone with symptoms or feeling unwell should consider staying home.

As a source of information on COVID - 19, we recommend that guests and staff refer to: <https://www.gov.mb.ca/covid19/index.html> as an informed source of information.

Paul McCrea  
President & G.M.
